He has been most successful in the treatment of Cancers. We welcome the Doctor

CHEAP FREIGHTS AND CHEAP INSURANCE TO LIV-ERPOOL.—The following paragraph we clip from the Angusta Constitutionalist of Sunday: At Charleston Meagrs. Countenay & Tarmeolar have on the berth for Laverpool the splendid new ship Bombay, about to make her first voyage across the Atlantic; she is 960 tons burden, and rates in underwriter parlance as "A 1," which is said to be a conclusive argument in favor of low rates of insurance, and taken in connection with the fact that the rate of freight is also very low, and that the Bombay is the only ship on the berth at Charleston for Liverpool, we think shippers will take to her very readily.

DEATH OF A CHARLESTON MERCHANT.-Mr. A. B. GLOVER, of the firm of RENNERER & GLOVER, for over sixteen years a citizen of Charleston; and since 1851, one of her prominent merchants, in the midst of apparent excellent health, was suddenly struck with apoplexy on Monday, and was not conscious again till he expired at 9 P. M. yesterday. Mr. GLOVER for a number of years was thoroughly identified with every public interest in our city, and stood exceedingly well in all the several societies companies and associations, of which he vasce member. He was only about forty years . id, and his untimely death will be severely felt by the community, and still more by his afflicted

PROFESSOR SARGENT .- The great illusionist held his second levee last night, and exhibited his wonderfubert to an admiring audience. His feats of legerdemain were equal to any that we have ever witnessed, and the ease with which he performed them prevented the most vigilant from discovering the trick. The Professor is an experienced Magician, and is well deserving of the cognomer of illusionist. The hall was filled with a discriminating andience, who greeted the different

MAYOR'S COURT-May 28 .- At the usual hour the

Court was convened, but the culprits were few though every effort had been made by the attenants to accommodate them. The parquette had been altered, and the new disposition of the seats gave the audience a better opportunity to study the face of the Judge. The dress circle and private boxes remain unchanged, but a great improvement has been effected by the introetion of a mahogany counter, which only wanted the accompaniments of a decanter and a few glasses to make it the veritable bar of justice. It was a table, formerly the property of the Fire Alarm Telegraph, which had been stolen and transformed into a counter by some unknown parties. The city recovered the property, but we would advise its removal from its present position, as it is too suggestive of brandy smashes and other gen-

The only prisoners before his Honor were a cheerful young damsel, who averred that she was not tight, but merely suffering from tight shoes. As she had requested several parties to assist her in tying her shoes, this statement appeared correct, and she was dismissed with a warning, and advised to wear a larger number if she wished to

walk in the straight path. Two youths, white and black, who had been quarreling, were arrested; a pistol found on one was confiscated, and the white owner sent to the Citadel, where he can have the opportunity of acknowledging his ownership to his great dissatis-

COURT OF COMMON PLEAS.-Hon. THOMAS W. GLOVER presiding .- The Court was engaged in several civil cases of trover, assumpsit, &c., and in assigning days for the trial of different cases but no business of public interest was transacted

UNITED STATES DISTRICT COURT-Hon. GEO. S. BEYAN presiding .- The case of the United States US. JASPIE GRIFFIN for passing and uttering fractional United States currency was resumed; the remaining witnesses were examined and the arguments delivered by H. E. Young, Esq., for the defence, and Maj. D. T. CORBIN, for the United States. The case was consigned to the jury, who returned a verdict of guilty. On motion of the District Attorney a bench warrant was issued for the arrest of GRIFFIN.

The United States vs. BERNARD McBRIDE, of Columbia, for the same offence, was then tried and ably argued by the opposing counsel, but the evidence was not deemed sufficient to convict, and the jury returned a verdict of not guilty.

REAL ESTATE SALES .- The following real estate sales took place yesterday: Mesers. R. M. MARSHALL & BROTHER sold at the

CORONER'S INQUEST .- At 11 P. M. Monday night, the body of Mary Pinckney, a colored woman, was discovered on the Battery, and Coroner WHITING was at once notified. He had the body removed, and at the inquest held yesterday, the jury returned a verdict of death from apoplexy.

LIFE INSURANCE RETURNS FOR THE YEAR 1866.-We invite the at:ention of our readers to the statement in our insurance column, of the age, assets and risks of the New York Life Insurance Companies, taken from a synopsis published by the Wall street underwriters. JAIL DELIVERIES.—The attempts to break jai are so frequent, and are repeated with such determination as to warrant more than a passing notice. It has long been the practice to allow the prisoners the privilege of the yard at certain hours. sr. they have invariably employed this time in contriving some plan of escape or in communicating with their outside confederates. During last winter a desperate attempt was made by the negro prisoners, some three hundred in number, to over power the police, and if it had not been for the timely assistance rendered by the whites they would have succeeded in effecting their escape Since that time the attempts have been numerou but have fortunately been frustrated by the vigilance of the guards.

A few weeks back some negroes confined in the tower contrived to break open their cells, and also one containing some tools! belonging to the workmen employed in repairing the building. Armed with these implements they cut through the different floors and succeeded in reaching the yard, but were detected by the police while attempting to scale the walls. The alarm was at once given, and on examination four were found in the yard and restored to their quarters.

On last Sunday a similar movement was anticipa ted, indeed the party evidently contemplated a reneral jail delivery. The looks were cut from welve cells, the same tools being used for the purpose and it was supposed that their escape was certain. So confident were the confederates of necess, that they used no precautions, and the noise of their movements attracted the attention of the police, who immediately aroused the jailor and the plans of the levanters were again frus-

It is peculiarly unfortunate that we should have such expert cracksmen confined at the present time, for it was found to be absolutely necessary to strengthen the defences of the jail, and the tools of the workmen being kept in the building, soon came into the possession of parties who well understood their use. To prevent these outbreaks requires the greatest vigilance, and the few policenen now on guard are scarcely sufficient to check the turbulent inmates, as the location of the fail prevents a watch being placed on the southern and eastern sides, and when once in the yard, the escape through the friendly shelter of the Marine Hospital is easy.

At present there are about three hundred persons confined in the jail; it requires the greatest vigilance to keep them in bounds, as their confreres, who are not yet caged, are continually tudying how to effect their escape. It would eem that by a different management the prisoners could be made to feel the strength of their captivity, and the danger from escapes be thus woided. By confining the prisoners more closely, and not allowing them to visit the yard, their movements could be watched, their actions controlled, and the community feel confident that a onfinement in jail was not a farce.

Be On Your Guard

Against the imitations and counterfeits of HOSTET-TER'S STOMACH BITTERS, with which the PIRATES who make a DISHONORABLE LIVING, by preying upon the sick and suffering, are now endeavoring to flood the markets of this country. Whenever these POI-ON-MONGER are discovered they are immediately prosecuted by the proprietors, who expend thousands of dollars annually in racing them out and bringing them to justice. Within a short time injunctions have been obtained in the Courts of the United States against a number of individuals and firms, and suits are now in progress against several others, all of whose names will be given to the public. But in spite of the utmost vigilance and activity of their detective agents, the undersigned are of course unable to protect the public entirely against piratical mitations of a Standard National Tonic, everywhere in request, and as readily convertible into cash as United States Bonds or Treasury Notes. They therefore, as a neasure of precaution, direct attention to the fact hat finely engraved label, representing St. George and he Dragon, and a beautiful proprietary stamp, bearing the official endorsement of the Government, appear on every bottle of the genuine BITTERS. The article is further nature of "Hostetter & Smith." to counterfeit which is bottles only, and never in bulk.

I have always recommended the Faber Polygrade
Lead Pencils as the only pencils fitted for both ornamental and mathematical drawing; but, after a thorough
trial of the American Polygrade Lead Pencil, manufactured by the American Lead Pencil Company, New
York, I find them superior to any pencil in use, even to
the Faber or the old English Cumberland Lead Pencil,
being a superior pencil for sketching, ornamental and
mechanical drawing, and all the ordinary uses of a lead
pencil.

pencil.

These pencils are very finely graded and have a very smooth lead; even the softest poncils hold the point well; they are all that can be desured in a pencil. It gives me great pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or any other toreign market for penols.
